to Investigate Rare Diseases**

# Next steps

- Operationalize Rudy
  - Recruit
  - Assess
  - Bloods/ Urine/ Skin Biopsy/ Bone density
- Develop Rudy
  - Complete features development
- Secure medium term
  - Proposals – grant & industry

A conceptual image showing four hands of different skin tones (two darker, two lighter) arranged in a circle, holding a clear glass of water. The hands are positioned at the top, bottom, left, and right, with their fingers gently gripping the rim of the glass. The water inside the glass is clear and has some ripples on the surface. The background is plain white.
